## **Retrospective**

Our first practical session of the evening once again proved popular - with topics from “know your Camera”; “Fun with Filters” to “Photoshop Techniques” and “High speed Photography”.

The committee always appreciates the hard work and time put in by the members who run these sessions. If you have an idea for a session you would be prepared to run, or would like to see available - please contact George.

Appraising Landscape photography with Margaret Beardsmore

## **Upcoming - 21st September**

Next week sees our first speaker for the year visiting us - who is Scott Latham.

Scott is a member of the Cannock Photographic Society & Lichfield Camera Club and is an award winning photographer, and has just started out on the speaking circuit.

He runs nature workshops and organises wildlife photography tours.

In a change to previously advertised - the talk is now titled “Creating Composite Images and Local Wildlife” - He will now show a few examples of his composite images and show us the work process that created a couple of them. He will also show us wildlife images and talk through how he obtained them – many of the images have been taken locally from his hides near Georges Hayes Wood.
