21st November - Guest Speaker

Bob Brind-Surch - Macro Wildlife Photography

Bob's own words:

"I am an experienced photographer and naturalist passionate about my work and sharing my observations of wildlife with others. I have been a keen naturalist from a very young age and a photographer from my late teens. I am foremost a naturalist who photographs what he observes rather than a photographer specialising in wildlife. This is very important to me and goes back

to why I started taking photos in the late 60s.

My early photography consisted of taking colour slides to illustrate talks I gave on wildlife.

I learnt my photographic craft seeking to capture animals in difficult situations and specifically recording animal behaviour. This was all the more difficult with older manual film cameras but proved a good grounding for practising and refining the skills that still serve me well in the digital age."

This promises to be an excellent evening. See Bob's wonderful pictures here: [Bob Brind-Surch](#)

28th November - Members Evening No.2

The second of our Members Evenings. This time it is a real battle. Just like the Ashes is the only fixture in cricket that really matters, in the photographic world this is the big one.

LADIES v GENTLEMEN

The ladies probably won't act like ladies and the gentlemen definitely won't act like gentlemen.

Who will come out on top..... figuratively speaking so to speak.....

Last Week - Audio Visual Evening with Howard Bagshaw

Howard Bagshaw once again paid us a visit and give us some guidance on producing Audio Visual Presentations. Howard is an expert in A/V's and it showed. He demonstrated the steps involved in his usual easy going manner and of course made it all look so easy. Howard interspersed his teaching with a few of his own productions. As usual these were all extremely good. Howard recommended using

the slideshow software PicturesToExe and the audio software Audacity. Links below:

If you Google PicturesToExe there are loads of written and video tutorials. Three good videos here:

Howard is a member of the Staffordshire Audio Visual Group. The group meets at Derrington Village Hall, near Stafford, on the 3rd Wednesday of each month at 8:00pm. There are around 25 members of the group, some beginners, some more experienced. You would be very welcome to go along to see what they do, to see some examples of AV sequences, or to see how AVs are produced.

Martin Mere trip Thursday 17th November

Meet inside the CAFE at Martin Mere Wetlands Trust between 9.30 am and 10.00 am. Martin Mere is opens at 9.30 am. The admission charge is £12.60 for adults, £9.20 concessions with a discount if you book online (if you are a Wetlands Trust member admission is free).

Please allow plenty of time for travel as the M6 is usually busy, and car share if possible.

We will spend the morning at the Wetlands Trust, then depending on what we feel like on the day, may go on to other wildlife sites in the area. However, sunset is 16.11 so there are not many hours of daylight!

Please put your name on the list at Camera Club if you 'think' you might come so car sharing can be arranged - also include your mobile number please.

If anyone wants to extend their visit and looking for a B&B, Derek and I have booked into a nearby B&B Brandreth Barn on the 16th and 17th November. We will be going to the salt marshes in Southport, probably on the Wednesday afternoon, and on Friday morning probably Lunt Meadows RSP Reserve. Formby is also close by.
