### Last Week - Howard Bagshaw

We never have a dull evening when Howard visits us. To have someone come to entertain who really is a master of their craft is always going to be good. Howard is an expert in producing Audio Visuals and once again it showed. He demonstrated the steps involved in his usual easy going manner and of course made it all look so easy. Howard interspersed his teaching his own productions, all of which were truly excellent.

### This Week - Guest Speaker - Wayne Brittle 'Another Time, Another Place

Wayne lives close to the Staffordshire & Derbyshire border and has over 35 years photographic experience. Wayne's passion for landscape photography comes from his love of the great outdoors. He says he often rises well before sunrise and travels miles to capture the beauty of the British landscape. Wayne's talk will focus on how he goes about photographing his landscapes, from the planning stage through to the final image. It includes numerous tips and advice on locations, equipment and techniques and Wayne welcomes questions from the audience ... as well as having a bit of fun in the process.
