## Last Week - Guest Speaker Claire Carter

Our first guest Speaker of the season was Claire Carter with her talk titled 'Perpetually in Motion Pt1'. Although I couldn't be there myself, I've heard that Claire put on a brilliant presentation. She concentrated mainly on Landscape images, the 'motion' came from the light which all photographers need. Adding light gives a third dimension making her images very atmospheric showing a passage of time. Her AV on the Northern Lights was absolutely amazing. Comments from members:

'What a brilliant speaker, can't wait to see Pt2', 'It made me feel quite emotional', 'Excellent speaker'.....

## ..... and It's Goodbye from me.....

I'm pleased to announce that my 3 week stint as Newsletter Guest Editor has come to an end. You will all no doubt be pleased as well. Graham will be back off his hols next week. I'd forgotten just how hard it is to find stuff to write about. For an editor, no news is bad news. On behalf of Graham any news or stories you think would make interesting reading, I'm sure Graham would be extremely pleased to hear from you. Auf Wiedersehen....
